

Product Name :
Flow Cone Apparatus

Product Code :
ENGLABINGCAG3900032

Description :

Flow Cone Apparatus

Technical Specification :

The apparatus comprises a metal stand supporting the stainless steel cone having inside dimensions of 150 mm inside upper dia. x 280 mm height.

used for determining the flow properties of mortars, grouts, muds and many other type of fluid materials.

When fit with the 10 mm nozzle the total height is 350 mm.

The apparatus, as prescribed supplied complete with 150 mm dia. sieve 1.5 mm opening, 10 mm dia. nozzle with fitting bush and 1 liter cap. cup.

It can also be fit with other nozzles 8, 9, 11, and 13 mm int. dia.

Nozzle 8, 9, 10, 11 and 13 mm

Cup 1 lt

Stand

Flow Cone,

Sieve 1, 5 mm
