

Product Name :
Pin Join Truss Apparatus Data Acquisition

Product Code :
ENGLABINGCAG410003

Description :

Pin Join Truss Apparatus Data Acquisition

Technical Specification :

Key features:

High-quality structures training module for students of mechanical, civil and structural engineering

Allows safe and practical experiments into pin-jointed frameworks

Realistic and verifiable experiments results

Optional Structures Software package for extra 'virtual' experiments that simulate and confirm the results from your hardware and allow extended experiments

Optional unit with Structures Software package for automatic data acquisition and virtual experiments.
