

Product Name :
Portal Frame Apparatus with Data Acquisition

Product Code :
ENGLABINGCAG4100004

Description :

Portal Frame Apparatus with Data Acquisition

Technical Specification :

Key features:

Allows safe and practical experiments into plastic bending of portals

Realistic and verifiable experiment results

High-quality structures training module for students of mechanical, civil and structural engineering

Optional Structures Software package for extra, 'virtual' experiments, that simulate and confirm the results from your hardware and allow extended experiments

Optional unit with Structures Software package for automatic data acquisition and virtual experiments.
