

Product Name :
Skid Resistance and Friction Tester

Product Code :
ENGLABINGCAG440021

Description :

Skid Resistance and Friction Tester

Technical Specification :

Tool set with case, for machine assembly
Rule for sliding length verification
Additional scale for tests on polished stone value specimens
used for the measurement of surface friction properties, the apparatus is suitable for both site and laboratory applications and for polished stone value tests using curved specimens from accelerated polishing tests.
6 rubber sliders for site use, complete with conformity certificate
Thermometer -10 to +110°C for surface temperature measurement
Distance between rocking centre & center of gravity : 410 +/- 5 mm
Positive static pressure on pavement : 22.2 +/-0.5 kn
6 rubber slider and base plate dimension (mm) : 700x360x70
1 litre washing bottle, for surface wetting
Rocker weight : 1500 +/- 30 g
