

Product Name :
Benkelman Beam

Product Code :
ENGLABINGCAG4200014

Description :

Benkelman Beam

Technical Specification :

Benkelman Beam utilizes the technique of using balanced beam in conjunction with a suitable vehicle to measure road flexure.

The improved Benkelman Beam is a convenient, accurate device for measuring the deflection of flexible pavements under moving wheel loads.

Operating on a simple lever arm principle, the unit consists.

Supplied with carrying case.

Lightweight Aluminium construction

Ease of Transportation

Unique Telescopic Design Simplifying Field set up

Compact, Thereby reducing the amount of storage space needed.
