

Product Name :
Solvent Recovery Unit

Product Code :
ENGLABINGCAG4200030

Description :

Solvent Recovery Unit

Technical Specification :

An electric heater in the left-hand chamber distills the solvent, which then passes through a water cooling system and drops into the second chamber ready for re-use in a new test.

used to recover the solvent liquid after its use for the extraction tests.

This unit has been designed to recover non-flammable solvents and consists of two stainless steel chambers, one for dirty solvent and the other for the cleaned solvent.

Supplied complete with 10 m plastic tube, tube clamps, sieve insert 0.6 mm opening and one lid.

Once the process is completed, a temperature switch automatically stops the heating elements.

Power: 1200 W

Max. temperature: 150°C

Weight approx.: 17 kg

Overall dimensions: 400x320x650 mm
