

Product Name :
Kinematic Viscometer Bath

Product Code :
ENGLABINGCAG4200034

Description :

Kinematic Viscometer Bath

Technical Specification :

Features:

- High precision digital display
- Ideal for controlling the temperature accuracy
- Intelligent signal sampling for accurate data measuring and parameter reading
- Desktop based all-in-one design for easy operations and portability
- Electric stirrer for ensuring uniform temperature of bath
- Easy cleaning and drying of viscometer tubes
- Accurate viscometer for improving experimental efficiency
- Durable glass bath for optimum heat preservation
