Product Name : Load Ring Penetrometer

Product Code : ENGLABINGCAG4000060

Description :

Load Ring Penetrometer

Technical Specification :

The apparatus consists of a 'T' shaped handle connected to a load ring 1 kN (100 kgf) cap., with max load pointer, and of an extension rod with five 100 mm graduations. used for measuring the bearing strength and compaction degree of soils. The 30° end cone has an area of 645 mm2 (I sq. in).

Supplied complete with calibration chart.

Weight approx.: 4 kg
