

Product Name :
Slump Test Apparatus

Product Code :
ENGLABINGCAG360023

Description :

Slump Test Apparatus

Technical Specification :

Concrete Slump Test measures consistency and workability of fresh concrete, and indirectly, the water/cement ratio of the concrete mix.

We offers a solid selection of slump testing equipment for testing in the lab or field.

A number of accessories make slump testing easier and more efficient, from sample preparation to clean-up.

Select from scoops, trowels, brushes, measuring tapes, or funnel.

Choose from individual products or required components contained in our convenient Slump Test Sets.

Slump Test Apparatus

The slump cone has internal dimension 200 mm dia at base 100 mm top dia and 300 mm height foot pieces can be fixed to the clamps on the base plate.

The base plate has lifting handle for easy transportation.

One graduated steel rod 16 mm dia x 600 mm long rounded at both ends and graduated in mm is also supplied.
