

Product Name :
Crack Measuring Microscope

Product Code :
ENGLABINGCAG3600030

Description :

Crack Measuring Microscope

Technical Specification :

The apparatus operates by an adjustable lamp unit and the image is focused by turning a knob. A high quality microscope designed for measuring crack widths in concrete members, masonry walls and other structures.

The eyepiece scale can be turned through 360° to align with the direction of the crack or pitch under examination.
