

**Product Name :**  
Metallurgical Samples

**Product Code :**  
ENGLABINGCAG2800011

**Description :**

Metallurgical Samples

**Technical Specification :**

**FEATURES:**

These sets are supplied in a wooden storing box with silica gel.

Type of Etchant with description of Microstructure along with their colored photographs are provided in a booklet.

**LIST OF METALLIC MICROSTRUCTURE**

- Dead Mild Steel
- Mottled cast Iron
- Low Carbon steel
- Ductile cast Iron
- Medium Carbon steel (Annealing)
- Cartridge Brass
- Medium Carbon steel (Normalizing)
- Hardened steel
- Anodized Aluminum
- Tempered steel
- Fusion Welded Mild Steel
- Carburized steel
- Friction Welded Steel
- Muntz Metal

---

Decarburized High Carbon steel  
Tin Bronze  
Inclusion in steel  
Electroplated Component  
Tool steel  
Powder Metallurgy Component  
Gray cast Iron  
Deformed Mild Steel  
White cast Iron
