

Product Name :
Wood Radial Arm Saw

Product Code :
ENGLABINGCAG240027

Description :

Wood Radial Arm Saw

Technical Specification :

Totally enclosed fan cooled (TEFC) motors are manufactured with cooling ducts that move air through the motor laminations to keep them cool while keeping the internal portion of the motor sealed from dust and contamination.

Cast Construction

Our motors also offer the added benefit of an integrated electro-mechanical brake system.

The brake system continues to operate even when the power drops out.

Electronic brake systems cannot compete with the durability or reliability of our electro-mechanical brake systems.
