

Product Name :
Flexible Manufacturing System

Product Code :
ENGLABINGCAG250009

Description :

Flexible Manufacturing System

Technical Specification :

Flexible Manufacturing System (FMS) is a prototype of FMS, which are currently being used in the industry.

It consists of following equipment:

CNC Lathe with Servo Motors

CNC Mill with Servo Motors

Gantry for Loading and Unloading from CNC Lathe Machine

Three Axes Robotic Arm for Loading and Unloading in CNC Mill Machine

Pallet Conveyor / Automated Guided Vehicle

Automatic Storage and Retrieval System
