

**Product Name :**  
Flexible Manufacturing System

**Product Code :**  
ENGLABINGCAG250009

**Description :**

Flexible Manufacturing System

**Technical Specification :**

Flexible Manufacturing System (FMS) is a prototype of FMS, which are currently being used in the industry.

It consists of following equipment:

CNC Lathe with Servo Motors

CNC Mill with Servo Motors

Gantry for Loading and Unloading from CNC Lathe Machine

Three Axes Robotic Arm for Loading and Unloading in CNC Mill Machine

Pallet Conveyor / Automated Guided Vehicle

Automatic Storage and Retrieval System
