### **Product Name :** Flexible Manufacturing Syste

### Product Code : ENGLABINGCAG2500009

### **Description :**

Flexible Manufacturing System

## **Technical Specification :**

Flexible Manufacturing System (FMS) is a prototype of FMS, which are currently being used in the industry.

It consists of following equipment: CNC Lathe with Servo Motors CNC Mill with Servo Motors Gantry for Loading and Unloading from CNC Lathe Machine Three Axes Robotic Arm for Loading and Unloading in CNC Mill Machine Pallet Conveyor / Automated Guided Vehicle Automatic Storage and Retrieval System
