## **Product Name :** Guarded Hot Plate with Data Acqu

## Product Code : ENGLABINGCAG3300010

## **Description**:

Guarded Hot Plate with Data Acquisition

## **Technical Specification :**

FEATURES:

Determination of thermal conductivities k for different material at different temperatures Thermal conductivity of solid can be calculated. Ideal for group studies & demonstration. Panelized instruments mounted on a control panel. Easy to operate. Functions of the software: educational software, data acquisition, system operation Useful for institutions, research laboratories & insulating powder manufactures SPECIFICATION: The unit requires outside water supply. Cold plates Hot plate :

Hot plate heater: 500 W with control knob. Guard ring heater: 500 W with control knob.

Measuring ranges : Temperature: 2x 0...325°C Heating power: 0...450W

Required for Operation : 230V, 50Hz, 1 phase 230V, 60Hz, 1 phase; 120V, 60Hz, 1 phase
