Product Name :
Automotive Electronic Circuit

Product Code :
CHINAELABC0030005

Description :

Automotive Electronic Circuit

Technical Specification :

This trainer should be designed to teach students principles and introductory to Automotive Electronic Circuits through comprehensive practical activities using on-board component's matrix with modular electronic components.

The activities include simple DC circuits and measurements, lamp in series circuits, lamp in parallel circuits, lamp in series-parallel circuits, switches, battery and fuse, resistance circuit, diodes and transistor familiarization.
