Product Name :
Ignition and Charging System

Product Code :
CHINAELABC0030008

Description :

Ignition and Charging System

Technical Specification :

This trainer should be designed to teach students principles of Ignition system used in modern vehicle through comprehensive practical activities.

The activities include semiconductor familiarization, transistor basic circuit, contact breaker ignition, wasted spark ignition, electronic ignition systems, spark plugs, and alternator charging systems.

The trainer is neatly laid out to represent the typical automobile ignition systems with distributor model, ignition coils, ignition circuit, alternator model, spark plugs model, camshaft and crankshaft sensor circuit and part of engine control unit (related to ignition system).
