

Product Name :
DLC Vibrating Hammer for Concrete Mould

Product Code :
ENGLABINGCAG3600060

Description :

DLC Vibrating Hammer for Concrete Mould

Technical Specification :

Generally the vibratory hammer is found to be a much faster & quicker method as compared to impact hammering.

The vibratory hammers are supplied with 1 tamping feet & 1 shank.

Used for the compaction of concrete samples in a mould.

Used for determination of the relative quantity of mixing water that will bleed from a sample of freshly mixed concrete.
