

Product Name :
Test Sieves

Product Code :
ENGLABINGCAG3600070

Description :

Test Sieves

Technical Specification :

Cleaner-By-Design' sanitary construction.
Stainless Steel Frame.
Test Sieve frame is polished – Inside and Out!
All standard sieve frames are die stamped for quality – your assurance of consistency, fit, and function from sieve to sieve.
Sieve frames stamped using 22 ga. Sheet metal – in some cases 37% thicker than the sieve frames found on competitors test sieves.
Stainless Steel Sieve Cloth conforming to ASTM E11-20 or ISO 3310 specifications.
Test Sieves
No ink markings on the sieve cloth
No rivets on the inside surface of the test sieve frame
Test Sieve construction features a 'clean and smooth' transition from the side wall of the sieve frame to the sieving surface – there is no epoxy bead for product to get caught.
