

**Product Name :**  
Temperature Measurement Trainer

**Product Code :**  
ENGLABINGCAG2600013

**Description :**

Temperature Measurement Trainer

**Technical Specification :**

Combination of RTD, Thermocouple and Thermistor.

Display: 3 1/2 digit digital LED display of 200mVFS.

Probes: Sensors are housed inside 6mm dia SS tube of 6 lengths.

Source Temperature: A glass thermometer to read up to 1100 C.

Sensors: Thermocouple – Fe-K (J type) R. T. D. – PT-100 Thermistor – 5Kohms (-ve coefficient)

Temperature: 1000 C.

Temperature Source: A small portable electric kettle in which water can be heated up to boiling temperature

Power required for operation

230V, 50Hz, 1 phase

230V, 60Hz, 1 phase
