

Product Name :
Aneroid Barometer

Product Code :
ENGLABINGCAG2600038

Description :

Aneroid Barometer

Technical Specification :

FEATURES:

Bimetal element provides temperature compensation for aneroid capsule.
Choose from mbar/mm Hg or mbar/inches Hg models.
Includes an attractive brass case and include a bezel for easy bulk-head mounting.
Needs no batteries or external power.
Use these economical instruments for long-term temperature, relative humidity and barometric pressure monitoring.

SPECIFICATION:

Triple Scale Aneroid Barometer is made of solid brass & stainless steel construction, which keeps it durable for years of classroom use.
Measuring 6 in diameter it is wall mountable, calibrate able and is also RoHS compliant.
The range of the meter is 27.75 – 31.25 in Hg, 70.5 – 79.4 cm Hg, 940 – 1080 m bar and the accuracy of the meter is ± 0.1 in Hg, ± 0.3 cm Hg, ± 3.5 m bar.
