

**Product Name :**  
Training Station for Multi Process Regulation

**Product Code :**  
ENGLABINGCAG480010

**Description :**

Training Station for Multi Process Regulation

**Technical Specification :**

Contains a selection of level, flow, pressure, temperature and PH sensors and indicators  
Primary and secondary flow controlled by linear motorised control valves  
On/Off and proportional control P, PI and full PID control with autotune facility  
Can perform dual loop cascade control  
Water used as the process fluid
