**Product Name:** 

Training Station for Multi Process Regulation

Product Code:
ENGLABINGCAG4800010

## **Description:**

Training Station for Multi Process Regulation

## **Technical Specification:**

Contains a selection of level, flow, pressure, temperature and PH sensors and indicators Primary and secondary flow controlled by linear motorised control valves On/Off and proportional control P, PI and full PID control with autotune facility Can perform dual loop cascade control Water used as the process fluid
