

Product Name :
Bench Pressure Sensors Regulated Version

Product Code :
ENGLABINGCAG4800012

Description :

Bench Pressure Sensors Regulated Version

Technical Specification :

The picture is only for reference Minimum required characteristics:

Objectives: Understanding of the different pressures measured

Absolute pressure / Relative pressure / Differential pressure

Study and comparison of different sensor technologies

pressure

Study of a pressure regulation loop

Main Features

Compressed air supply with regulator.

Air regulator with isolation valve.
