

Product Name :
Photovoltaic Training Bench

Product Code :
ENGLABINGCAG4900012

Description :

Photovoltaic Training Bench

Technical Specification :

The training platform adopts aluminum profile column frame structure, the measuring instrument and the training power supply are built-in integrated installation, and the universal wheel is provided at the bottom. The units are flexible, easy to use and not easy to damage.

The experimental circuit and device are fully equipped and can be used in combination to complete the training content of various courses.

The training platform has a good security protection system.
