

Product Name :
Robotized Station 6 DOF Robot Trainer

Product Code :
ENGLABINGCAG510009

Description :

Robotized Station 6 DOF Robot Trainer

Technical Specification :

Understand the mechanical composition and working principle of the robot; Understand the performance indicators of the robot; Observe the basic function operation process of the robot
Experimental content of the robot mechanical system: Understand the composition of the robot mechanical system; Understand Principles and functions of each part of the robot mechanical system; Master the method of single-axis movement of the robot.
