

Product Name :
6 Dof Robot Training Bench with 3 Kg Load

Product Code :
ENGLABINGCAG5100010

Description :

6 Dof Robot Training Bench with 3 Kg Load

Technical Specification :

Robot structure
Robot function analysis
Displacement technology and motion analysis
Operational software analysis (replacement algorithm, self-forming...)
Robotic equipment in industrial environments
Electrical operation of the robot
Program and control the station via software via PC, which can track the displacement of the robot, coordinate extraction and detection of working areas and singular points
