Product Name:

6 Dof Robot Training Bench with 3 Kg Load

Product Code:
ENGLABINGCAG5100010

Description:

6 Dof Robot Training Bench with 3 Kg Load

Technical Specification:

Robot structure

Robot function analysis

Displacement technology and motion analysis

Operational software analysis (replacement algorithm, self-forming...)

Robotic equipment in industrial environments

Electrical operation of the robot

Program and control the station via software via PC, which can track the displacement of the robot, coordinate extraction and detection of working areas and singular points

Engineering Lab Equipment India
