

**Product Name :**  
Industrial Automation and Mechatronics Training

**Product Code :**  
ENGLABINGCAG510023

**Description :**

Industrial Automation and Mechatronics Training

**Technical Specification :**

Training platform structure takes aluminum structure, with four universal wheels under the end of workbench, with two lockers on two wheel, it's flexible to move and stop. Various execute mechanism module is installed in aluminum base panel, it's easy to operate, safety and reliable.  
PLC control unit is installed in training workbench, it's easy to operate, safety and reliable.
