

Product Name :
Conveyor Control System

Product Code :
ENGLABINGCAG510029

Description :

Conveyor Control System

Technical Specification :

Conveyor control system is a training system which can meet practical field , it can sufficient simulate industrial field automatic production line. This system combined with realistic conveyor system production line, it can make the student improve the understanding of automatic conveyor production system. System mainly be made up of air cylinder, solenoid valve, sensor,
