

Product Name :
PCB Processing System

Product Code :
ENGLABINGCAG520007

Description :

PCB Processing System

Technical Specification :

The fan forced convection and natural convection, suitable for different experimental requirements
Use: for screen printing halftone, printing ink drying
Performance: can set the baking temperature and display, with the temperature adjustment function
Temperature range: R.T ~ 300 °C
Temperature fluctuations degrees: + /-0.5 °C
The highest temperature arrival time: 20 min
Temperature deviation: ± 3 °C
