Product Name : Compact PLC 40 Inputs Outputs	Product Code : ENGLABINGCAG5000035

Description :

Compact PLC 40 Inputs Outputs

Technical Specification :

Standard modular unit hanging box, PLC embedded installation.
Input and output of the PLC module All the terminals are led out to the panel through the adapter terminal, and connected using the K2 test line.
PLC module selects provides 30 digital input, 10 transistor (DC24V) output, 16 relay output, 6 analog input, 4 channels Analog input, support for memory cards, support for Ethernet module expansion.
The PLC input can simulate the digital input state through the switch operation.
LED lights indicate the input and output status.
