

Product Name :
Set of 3 Phases Transformers

Product Code :
ENGLABINGCAG5000083

Description :

Set of 3 Phases Transformers

Technical Specification :

Input power: three-phase five-wire system 380V plus or minus 10% 60Hz

External dimensions: 500mm x 500mm x 800mm

Complete machine capacity: working conditions: temperature - 10 °C ~ + 40 °C relative humidity Complete experiment

The cognitive experiment of transformer

Experiment on operation characteristics of three-phase transformer

Experiment of single-phase transformer operation characteristics
