

**Product Name :**  
Home Energy Visualization Test Bench

**Product Code :**  
ENGLABINGCAG500092

**Description :**

Home Energy Visualization Test Bench

**Technical Specification :**

Solar panel parameters are as follows:

Load regulator 24 v

Battery 12 v-12ah

Voltage converter 24V DC/230V AC. 200 w.

Load controller 12/24v dc-20a

Differential circuit breaker 16/30 ma

Converter 500 w

It is a wheel system allowing the study of the energy restitution on the 230V AC power grid as well as its use in an isolated zone.
