

Product Name :
Air Conditioning Electrical Control Board Trainer

Product Code :
ENGLABINGCAG5000118

Description :

Air Conditioning Electrical Control Board Trainer

Technical Specification :

The structure of steel box, electrical control components through the transparent panel is fixed inside the box body, all contact through wired connection to test terminal, students can clearly see each components of the structure and connection mode.

Transparent panel can be moved flexible, can replace electrical components as corresponding requirement.

The overall dimensions for: 650 * 800 * 200 mm.

The power input: AC380V, 5A, through secure connector industry access.

Contained components

the main frame unit 1 unit

Power supply 1 unit

The indicator lamp module 1 unit

Toggle switch module 1 unit

Selector switch module 1 unit

Start button switch module 1 unit

Stop button switch module 1 unit

Ac contactor, three main contact, 2NO2NC coil 220 volts, 4 units

The time delay relay, the coil 220, 3 units

Three-phase thermal overload relay 4 units

Intermediate relay, the coil 220 v, 3 units

Safety electrical cable 30 eas (yellow, green, red, blue, black)

Power cable 2 eas (220 v 1 ea and 380 v 1 ea)

Engineering Lab Equipment India
