

Product Name :
Selectivity Educational Equipment

Product Code :
ENGLABINGCAG5000164

Description :

Selectivity Educational Equipment

Technical Specification :

The simulation of situations of selectivity power total partial and non-selectivity
The study of the concepts of selectivity to 2 or 3 floor and their consequence and effects on an installation
The choice of the impedance of the fault loop by the chokes of modular values
The presentations simplify of the cut by the electric arc in very low voltage and the limitation of the short-circuit current.
