

Product Name :
Training Bench for Electrical Installation

Product Code :
ENGLABINGCAG5000170

Description :

Training Bench for Electrical Installation

Technical Specification :

Input power: AC380V, 50Hz; Three - phase five-wire system

External dimension: 1600 x 800 x 1680mm (length x width x height)

Total capacity: less than 1.5 kVA

Power control: use automatic air switch to break power supply, with short circuit protection system, leakage protection system, grounding protection, emergency stop protection, etc

Ac power output: three-phase five-line ac 380V plus or minus 10% : safety sheath output

Single-phase three-line ac 220 + + 10% : safe sheath output and three-pole multi-function socket output

Dc stabilizer power supply: DC0 ~ 30V / 3A section is adjustable, adjust accuracy 0.1 V, have short circuit soft stop sound alarm and short circuit recovery function

Voltmeter: digital dc voltmeter 0 ~ 200V, accuracy 0.5

Current meter: digital dc current meter 0 ~ 6A, accuracy 0.5
