

Product Name :
Basic Level Mobile Hydraulics Working Hydraulics

Product Code :
ENGLABINGCAG5000176

Description :

Basic Level Mobile Hydraulics Working Hydraulics

Technical Specification :

Input power: AC: 220V
Experimental table size: 1650 (length) x 700 (width) x 1800 (height)
Aluminum alloy panel size: 1200 (length) x 750 (width)
Groove interval: 25mm
Specifications: Cabinet: 1
Desktop structure: 1
Casters with split grooves: 4
Safety limit speed range: 1000-1500 rpm
The noise at a distance of 1.5m from the hydraulic platform when the hydraulic pump is working is less than or equal to 58dB0
Demonstration experiment requires only 4-6Mpa for fluid flow pressure
Fuel tank: Nominal volume 35L
