

Product Name :
Electrical Engineering Principals

Product Code :
ENGLABINGCAG5000196

Description :

Electrical Engineering Principals

Technical Specification :

Circuit of Electric Lamp - Not Controlled
Single Control Circuit of an Electric Lamp
Power Outlet (Socket) Circuit
Single Control Circuit of an Electric Outlet (Socket)
Single Control Circuit of an Electric Lamp & Non-Controlled Socket
Single Control Circuit of a group of Lamps connected in series
Single Control Circuit of a group of Lamps connected in parallel
Single Control Circuit of 2 groups of Lamps
Single Control Circuit of a Group of Lamps and a Socket
Double Control Circuit of a Group of Lamps
Triple Control Circuit of a Group of Lamps
Quadruple Control Circuit of a Group of Lamps
Double Control Circuit of a Group of Lamps with Dimmer
Triple Control Circuit of a Group of Lamps with Dimmer
Single Control Circuit of a Fluorescent Lamp
Single Control Circuit of 2 Fluorescent Lamps connected in Parallel
Single Control Circuit of an Ordinary Lamp and a Fluorescent One
Single Control Circuit of 2 Fluorescent Lamps
Circuit for Testing Inspected Faults in Different Switches

Circuit for Testing Inspected Faults of Lamps
Single Control Circuit of a Bell
Double Control Circuit of a Bell
Single Control Circuit of 2 Bells with an Operating switch for each.

Engineering Lab Equipment India
