

Product Name :
Electromagnetism and Magnetic Circuit

Product Code :
ENGLABINGCAG500209

Description :

Electromagnetism and Magnetic Circuit

Technical Specification :

Input power: dc power supply 0-5v + 10% 60Hz.
Working conditions: temperature - 10 °C ~ + 40 °C
Relative humidity The equipment contained the following components
Magnetometer
Hall sensor.
Range conversion.
Reset button
Measurement calibration
Power switch
Liquid crystal display screen.
2mm safety electrical cable
Inductive coil
Soft iron for electricians.

Engineering Lab Equipment India
