

**Product Name :**  
Electromagnetism and Magnetic Circuit

**Product Code :**  
ENGLABINGCAG500209

**Description :**

Electromagnetism and Magnetic Circuit

**Technical Specification :**

Input power: dc power supply 0-5v + 10% 60Hz.  
Working conditions: temperature - 10 °C ~ + 40 °C  
Relative humidity The equipment contained the following components  
Magnetometer  
Hall sensor.  
Range conversion.  
Reset button  
Measurement calibration  
Power switch  
Liquid crystal display screen.  
2mm safety electrical cable  
Inductive coil  
Soft iron for electricians.
