

Product Name :
Electrician Training Workbench Electrical Skills

Product Code :
ENGLABINGCAG5000234

Description :

Electrician Training Workbench Electrical Skills

Technical Specification :

Power input: three phases, five wires AC380 \pm 10% 50HZ \pm 10%
Power control(per work station): leakage breaker to control the connect and disconnect for power, with short circuit protection, leakage protection. Output(per station):
Three phases AC 380V \pm 10% 50HZ, single phase AC 220V \pm 10% 50HZ
DC stabilized voltage:0~30V/3A, with coarse tuning, fine turning, adjust precision is 1%, power supply is 3A, 0~30V continuous adjustable, 3 bits and a half display digital display voltage, current, it has current limit short circuit protection and self recovery functions. It also has sound and light alarm function.
