

Product Name :
PLC Training Workbench Electrical Installation

Product Code :
ENGLABINGCAG5000235

Description :

PLC Training Workbench Electrical Installation

Technical Specification :

Training bench with aluminum column frame structure, the power supply built-in integrated installation, safe and convenient to use, is not easy to damage.

unit circuit hanging box configuration are complete, combination use, complete variety of critiquing the training content.

It can be set for an experiment subjects related units hang flexible increase or decrease in the box, in order to meet different user requirements.

It can do 17 experiments.
