

Product Name :
Compact Station Laboratory System for Process
Measurement and Control

Product Code :
ENGLABINGCAG5100059

Description :

Compact Station Laboratory System for Process Measurement and Control

Technical Specification :

Basic operation of the experimental device and instrument debugging
Use and performance test experiment of pressure transmitter
Pressure control and cascade control experiment
Object characteristic test experiment of single-capacity self-balancing water tank
Object characteristic test experiment of double-capacity self-balancing water tank
