Product Name :Hydraulic Training Workbench

Product Code:

ENGLABINGCAG5100067

Description:

Hydraulic Training Workbench

Technical Specification:

The equipment is composed of a high-strength sheet metal frame, which is beautiful and durable. The bottom is equipped with universal wheels, which can be easily moved; it is equipped with a cabinet for storing tools and devices, and the hydraulic station is integrated in the lower part of the equipment; various hydraulic valve blocks are fixed The base plate adopts special base plate profile, the groove interval of the panel is 25mm,
