

**Product Name :**  
Stirred Tank Reactors In Series

**Product Code :**  
ENGLABINGCAG680001

**Description :**

Stirred Tank Reactors In Series

**Technical Specification :**

A self-contained bench mounted small scale unit fitted with three continuous stirred reactors in series which are fed from two 5 litre tanks. Each reactor is fitted with a conductivity probe  
There are two independent, variable speed feed pumps  
A dead-time residence coil can also be attached to the exit of the last reactor in the series
