

Product Name :
Stirred Tank Reactors In Series

Product Code :
ENGLABINGCAG680001

Description :

Stirred Tank Reactors In Series

Technical Specification :

A self-contained bench mounted small scale unit fitted with three continuous stirred reactors in series which are fed from two 5 litre tanks. Each reactor is fitted with a conductivity probe
There are two independent, variable speed feed pumps
A dead-time residence coil can also be attached to the exit of the last reactor in the series
