Product Name :
Demonstration Of Dissolved Air Flotation

Product Code :
ENGLABINGCAG760001

Description :

Demonstration Of Dissolved Air Flotation

Technical Specification :

Flotation column made of plexi glass
Raw water tank with stirring machine
Peristaltic pump for pumping raw water
Continuously adjustable speeds of peristaltic pump and stirring machine
Height-adjustable inlet for raw water into the flotation column
Water circuit with pump and bypass
2 compressors for introducing the air into the water circuit
Transparent pressure vessel with Pall rings

Engineering Lab Equipment India
