

Product Name :
Electrical Fundamental Trainer

Product Code :
ENGLABINGCAG1030001

Description :

Electrical Fundamental Trainer

Technical Specification :

Series and Parallel Circuits
Measuring Voltage and Current
Cells and Batteries
Thermo couples
Photocells
Ohms Law

EASA Electrical Fundamentals 2:
Resistors in Series and in Parallel
Series/Parallel Networks
Voltage and Current dividers
Kirchoffs Laws
Power in DC Circuits
Power Transfer

EASA Electrical Fundamentals 3:
Capacitors and Electrostatics
Inductors and Inductance
DC Motors

Generator Principals
Transformers and their Construction
Transformer Losses

EASA Electrical Fundamentals 4:
AC Measurements
Inductance and Capacitance
LR and CR Series AC Circuits
LCR Series AC Circuits
LR and CR Parallel AC Circuits
LCR Parallel AC Circuits
Q Factor for Bandwidth
Low Pass and High Pass Filters
Band Pass and Band Stop Filters

Engineering Lab Equipment India
